

Division II University Online Coaches Education Program

DIVISION II UNIVERSITY

- An interactive system designed to deliver engaging online education.
- Will ultimately transform how the NCAA National Office delivers educational content for Division II.

ONLINE COACHES EDUCATION PROGRAM

- The first initiative to be introduced via the Division II University platform.
- An interactive series of courses will educate coaches on everything from recruiting rules and governance to improving student-athlete health and wellness.
- Coaches will access the new system through the NCAA single-source sign-on application via their mobile device, tablet or computer, whichever is most convenient.
- The program could replace the current annual coaches exam, pending a membership vote at the 2019 Convention.
- Courses on recruiting and eligibility, as well as health and safety topics such as sexual violence prevention and protecting/enhancing student-athlete mental wellness, will be ready in May 2018.
- Courses covering playing and practice seasons, awards and benefits, training and conditioning, and concussion management, among several others, are forthcoming.
